Compiled by ERNEST H. MILLER

CHARLOTTE, N. C.

PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively few only a very short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not have a City Directory. Just how up-to-date or complete the Directory is, depends in most cases upon the support accorded to the publishers, provided, of course, that they know their business.

It is an old saying that you can judge a man by the clothes he wears—whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of some one. Just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to the standard, and if you find it to be well patronized, you need not be told that it belongs to a live community—the fact is self-evident.

It is therefore with pleasure that we present Vol. XXII of the Charlotte, N. C., City Directory, for the fact is self-evident that we are doing business in a live community.

Population with suburbs, 58,721.
August, 1921.

Numerical Telephone Directory of Charlotte, N. C.

Note—This is a Department which we have added to the Charlotte Directory and which we think will be found very useful to our patrons. A business man on the return to his office is often requested to call such and such a number, without having the slightest idea to whom he is to speak. Before calling your number, a glance at the following list oftentimes will prove to be a source of great relief.—Publrs.

**It Pays
to Advertise**

A PERSISTENT ADVERTISER

One of the most persistent advertisers in the history of success was Robinson Crusoe.

He believed in advertising.

He knew what he wanted—a ship.

And he put up an ad for one.

He flung a shirt on a pole at the top of his island; that, in the language of the sea, was plain to every seafaring man.

The circulation was small and there was no other medium, but Crusoe kept it there despite the fact that he got no inquiries for a long time. He change his copy—as one garment after another was flapped out—and in the end got what he wanted, was happy, and his name and fame have come down through the ages.

The present-day merchant is much better off than Crusoe.

He has the City Directory, through which he can reach all the people, some of whom want his goods. Your chances of success are thousands to his one, but your chances of failure are the same as his.

Suppose Robinson Crusoe had taken down that signal after, say a year, and declared, "Advertising doesn't pay," where would he and his story now be?

Put up your signal and keep it up. There will be a number of ships cruising around during the year that will be glad to call and take you off the island of Dull Business.

Crusoe advertised under discouraging circumstances. You have got a sure thing—The City Directory.

Mr. Manufacturer, Merchant (Wholesale and Retail):

No other Publication in the world so thoroughly represents the commercial, social and private interests of your city as The City Directory. Representing, as it does, every private citizen from the hovel to the mansion; every commercial, social, religious and educational institution and all other data pertaining to your city, it is beyond question the most accurate and complete index to the city and its various interests in existence.

The Directory is the dictionary to the city and the next Directory we will issue for your city shall be The Unabridged Edition, "The first aid to strangers and a standard remedy for homefolks," accurate, complete and up-to-date in every respect. Unusual prospects of profit (direct and indirect) and civic Pride should influence every manufacturer and business man to have full representation in this Directory, and every well-governed home to have a copy of the latest Directory for the use and convenience of strangers and visitors. "Know thyself" is sound medical advice; Know Your City is equally good business advice. To do this you must consult The Directory.

For it's a fact that The Directory is your city's only standing representative to the world beyond your own gates and the only index to your city's growth and prosperity. A well-patronized city directory indicates a good city to locate in.

Yours truly,

THE HOUSE OF DIRECTORIES, Ernest H. Miller, Pres. and Genl. Mngr.
Asheville, N. C.

Biddle University

CHARLOTTE, N. C.

Biddle University, founded by the Presbyterian Church in the U. S. A., has four departments, namely: Normal and Preparatory, Arts and Sciences, Theological and Industrial.

The Preparatory and Collegiate Departments have each two courses of study, Classical and Scientific; the Scientific omitting the Greek and Latin Classics.

The Normal and Preparatory School is designed to prepare the student for teaching and for business life, or for entering the School of Arts and Sciences.

All students in the Preparatory Course are required to take some trade and report every day for work in the Industrial School. College students may also take trades. At present several trades are being taught—Carpentry, Printing, Brick-laying, Plastering, Shoemaking, Blacksmithing and Broom-making. One-fourth of the time in recitation hours is devoted to industrial training.

The Collegiate Department consists of four years; the Theological, three. The course of study prescribed in the Theological Department is liberal and practical. Besides the ordinary English subjects of the Theological Seminary, students who have taken a College Course, or its equivalent, pursue exegetical study of the Greek and Hebrew Scriptures in the junior and middle years. When the previous training of student has been partial and his years are mature a shorter and purely English Course has been provided.

The school year begins the third Wednesday in September, and closes the first Wednesday of June.

For information or catalog, write President H.-L. McCrorey

CHARLOTTE HAS

City-owned Auditorium.
Seventy-two miles of paved streets.

Six hotels with a total of 793 rooms.

Annual revenue from taxation, \$625,000.

Over one hundred miles of cement sidewalks.

Five libraries with over twenty-five thousand volumes.

Over one hundred miles of domestic and storm sewers.

One of the most elaborate "white ways" in the South.

Six hospitals and sanatoriums, all modern and fully equipped.

Modern and efficient fire department, with three stations—all motor equipped.

One of the best street railway systems in the country with 39.4 miles of track and operating 31 cars daily.

\$1,500,000 waterworks system, with daily pumping capacity of ten million gallons, and reservoir capacity of sixty million gallons.

Over 150,000 people live within a radius of fifty miles, and over 2,000,000 within a radius of 100 miles, embracing the richest trading territory in the South.

One of the most efficient health departments in the country, consisting of health officer, registrar, bacteriologist, assistant bacteriologist, twelve nurses, food inspector, and one quarantine officer.

Fourteen public school buildings, 9,190 pupils, 233 teachers.

Charlotte's Population

(By U. S. Census)

1890	11,557	
1900	18,091	
1910	34,014	
1920	46,318	

Charlotte's Industrial Plants

1900	57	
1910	108	
1920	162	

Charlotte's Banking Resources

1890	\$2,318,653	
1900	3,900,000	
1910	9,970,000	
1920	41,111,524	

Charlotte's Postoffice Receipts

1910	\$137,479	
1920	435,000	

The Territory Surrounding Charlotte Is Destined to Become the Greatest Industrial Section of the South Because of

Waterpower for manufacturing purposes at low rates.

Close proximity to sources of raw material for the manufacture of finished products from cotton, cotton yarns, cottonseed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.

Its logical location for the manufacture of commodities for export through the ports of Wilmington, Charleston and Savannah.

The opportunities for mining tin, copper and gold.

The very desirable type of high-class labor available for the manufacturer—pure American, untainted by foreign influence.

The weather conditions—the best in the country, with nine months of "open season."

Adequate transportation facilities to and from all parts of the country.

Unlimited agricultural possibilities in the growing of cotton, tobacco, peanuts, sweet potatoes, strawberries, peaches, apples and other crops. The fact that Charlotte, The Center, is such a delightful place to live.

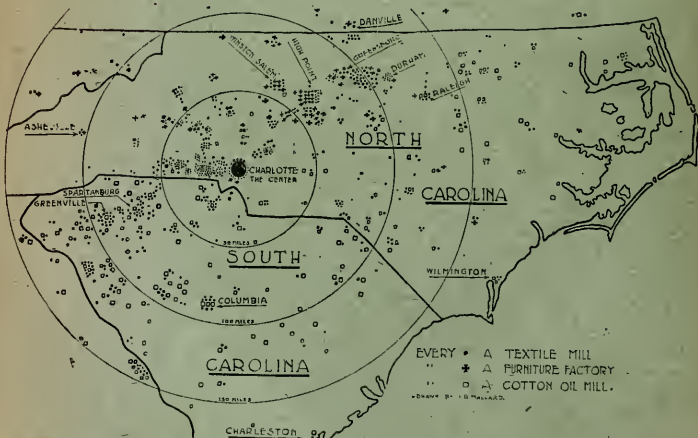

Therefore—

CHARLOTTE as the center, offers the finest opportunities of today as the logical location for new industries, distributors, wholesale houses, and business interests of every description, that wish to take advantage of the manufacturing and trade opportunities in this rapidly developing section.

Every live concern seeking business in the Carolinas should be represented in Charlotte.

Some evidence of the commercial importance of the Carolinas, and of Charlotte as the center.

The location of the 770 Textile Mills, 185 Cotton Oil Mills and 101 Furniture Factories of which Charlotte is the center.

Queens College

CHARLOTTE, NORTH CAROLINA

In its beautiful campus of 50 acres in Myers Park.

Electric car to college entrance.

Five new buildings: Administration, Music, Science and Art, and two Dormitories.

Equipment new and modern. Sanitation unexcelled.

B. A. and B. S. Degrees.

Schools of Music, Art and Expression.

All out-door sports.

Faculty of college grade from the best universities and colleges.

Queens Fitting School

Queens College does not wish to curtail or to discourage the work of the high schools within its territory, but would like to aid in building up the standards and efficiency of the high schools.

There are, however, in our State and in our neighboring States scores of high schools doing only one or two or three years of work. The girls who finish these schools and who wish to go to college must have a school in which to finish their preparation. We offer such a school.

Queens Fitting School employs only the best teachers.

Its standards of thoroughness and efficiency are the same as those of Queens College.

Its students receive the care and supervision necessary for training young girls, and they share the College home and enjoy the College life.

Day pupils who desire to attend a private school will be cordially welcome, as heretofore, to the classes of both the College and the Fitting School.

Literature on request.

ADVERTISING

is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told the bo where the bakery was. Or by the window of the bakery itself. There's isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on.

The man who claims not to believe in advertising is a—well, you know what Ananias was. This boob is too anxious for everybody to tell other people that his place is a good one to trade. But ain't willing to give the advertiser anything for telling the other folks. He is, to use a modern term, a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspapers to mention every time he has a case. The same is true of a lawyer. In fact, every honest person wants the right kind of advertising. Only dishonest persons are afraid of it, and they get it anyway.

Your Business In a Judicious Manner?

THE CITY DIRECTORY

Affords you the best medium for reaching all classes of people, and insures you a publicity wide-spread at a cost small in proportion when compared to that of other mediums.

All Legitimate Directories are: Town Builders, Money Savers, Town Advertisers, Prosperity Forecasters.

The City Directory

Is found in the money centers and is in constant touch with the money spenders. It is the Buyers' Guide, and the Sellers' Handy-Book.

It is an essential of every live business house. WHY then not help to build up that which helps to build up you and your business?
